

SHEEP & **U**CKLER **C**OW
ANIMAL
HEALTH
PLANNING
SYSTEM

SAHPS is a user friendly, web based, health planning system which allows farmers and their veterinary surgeons to manage flock/herd health and production in real time.

Comprehensive and tailored
 Produces a tailored, concise & comprehensive health plan.

Web System
 Accessible anywhere, anytime.

Manage events using calendar feature
 Calendar schedules treatments and highlights key event dates, producing a practice work list.

Highlights production shortfalls
 View and compare your clients' production and disease data year on year. Compare performance with similar enterprises at the practice level on a local area basis and nationally.

Upload your documents
 My documents: upload and share documents, such as lab reports.

Time saving
 Time saving functions such as copying forward the previous year's health plan.

Veterinary medicines
 Sophisticated medicines selector which automatically inserts the essential product data.

How do I access SAHPS?
 If you would like further information regarding access and use of the system please get in touch via the 'Contact Us' link at www.sahps.co.uk/contact_us
