Whatever your programme or level of qualification, there are certain attributes that you will develop during your studies. These are SRUC’s Graduate Attributes, and they are developed through both what you learn and how you learn.

**SRUC Graduate Attributes:**
- Academically Competent
- Critical Thinkers
- Desire for Learning and Personal Development
- Responsible Members of Society
- Employability

SRUC’s approaches to teaching are designed to generate enthusiasm and a desire to learn, which then promotes the development of these attributes through increased student engagement and active learning.

Maximise their Employability

SRUC develops graduates who leave us with the knowledge, skills and confidence required to develop their future career, particularly in the land-based and rural industries both in the UK and internationally.

Develoo a diverse set of transferable skills, including the ability to work independently and as part of a team, effective leadership and organisational capability.

Succeed at SRUC

SRUC develops graduates who leave us with the knowledge, skills and confidence required to develop their future career, particularly in the land-based and rural industries both in the UK and internationally.

SRUC is a charity registered in Scotland, No. SC003712
Have the breadth and depth of knowledge, understanding and skills in your chosen subject. Be able to communicate effectively for different purposes and in different contexts.

Become Academically Competent

Have the breadth and depth of knowledge, understanding and skills in your chosen subject. Be able to communicate effectively for different purposes and in different contexts.

Become Academically Competent

Appropriate to your level of study, SRUC will help graduates to:

Develop a Desire for Learning and Personal Development

Be aware of personal strengths and weaknesses. Be reflective on your abilities and seek continual personal development.

Become Critical Thinkers

Be independent, creative and have the ability to critically analyse information. Be able to identify and solve problems.

Become Responsible Members of Society

Understand global responsibilities and issues within your chosen subject. Have a responsible attitude to ethical and environmental issues and understand the principles of sustainability.
