## Section 1 – Introduction

### 1.1 Who is this guide for?

This guide is aimed at staff in colleges and universities with responsibility for determining the fee status of students. **The guide replaces the interim version issued in October 2020.** This guide sets out residency conditions for EU, EEA and Swiss nationals and their family members, and UK nationals living in the EU, who are studying courses of further and higher education in Scotland from the start of the academic year 2021-22. This is in light of the announcement on 9<sup>th</sup> July 2020 that, as a result of the UK's departure from the EU at the end of 2020, EU, EEA and Swiss nationals starting a course from 2021-22 will no longer be automatically entitled to home fee status in Scotland.

Separate guidance will be published on the financial support which students are entitled to (i.e. grants or loans for tuition fees and living cost support) and further information is available at [www.saas.gov.uk/need-to-know/brexit](http://www.saas.gov.uk/need-to-know/brexit). **Please advise students to contact SAAS if they require confirmation of what support they are eligible for.**

### 1.2 The legislation and guidance

This guide explains the changes to the current student support residency categories, as set out in The Education (Fees and Student Support) (EU Exit) (Scotland) (Amendment) Regulations 2021. These [Regulations](#) were laid in the Scottish Parliament on the 21<sup>st</sup> January 2021 and are due to come into force on 1<sup>st</sup> August 2021.

The Regulations amend the Education (Student Loans for Tuition Fees) (Scotland) Regulations 2006, the Education Authority Bursaries (Scotland) Regulations 2007, the Nursing and Midwifery Student Allowances (Scotland) Regulations 2007, the Students' Allowances (Scotland) Regulations 2007, the Education (Student Loans) (Scotland) Regulations 2007, the Education Maintenance Allowances (Scotland) Regulations 2007 and the Education (Fees) (Scotland) Regulations 2011.

For the purposes of this guidance on tuition fee status, only the changes to the Education (Fees) (Scotland) Regulations 2011 are relevant.

## **Section 2 – Residency**

### **2.1 EU Settlement Scheme (EUSS)**

EU, EEA and Swiss nationals and their respective family members who are living in the UK by the end of the transition period (31 December 2020) and continue to live here after that date have **citizens' rights** under the EU Withdrawal Agreement, the EEA EFTA Separation Agreement and the Swiss Citizens' Rights Agreement ("the Withdrawal Agreements"). Those who meet the conditions of the Withdrawal Agreements can continue to legally reside in the UK and enjoy associated rights. The rights of those who move to the UK after the end of the transition period (unless they have citizens' rights as a family member of a person already in the UK) will be subject to new Home Office visa arrangements.

Those who have citizens' rights can apply for settled status via the Home Office's EU Settlement Scheme (EUSS). They will be awarded:

- **settled status** (i.e. indefinite leave to remain) if they have the requisite minimum of five years of continuous lawful residence in the UK, or
- **pre-settled status** (i.e. limited leave to remain) if they have a shorter period of UK residence (any period of residence of less than five continuous years). After five years of continuous lawful residence in UK they can apply to change this status to settled status and should do so before their pre-settled status expires.

**Note – Those who have a family member that is an eligible person of Northern Ireland can also apply to the EUSS (regardless of whether the family member is an EU, EEA or Swiss citizen).** To be eligible, the person of Northern Ireland must:

- be a UK, Irish or dual UK/Irish national;
- have been born in Northern Ireland;
- at the time of their birth, have at least one parent who held British, Irish or dual nationality (or was without any restriction on their period of residence);
- be living in the UK by 31 December 2020.

### **2.2 Fee Status Table**

This table provides a summary of the fees applicable to different categories of students. The 'home' fee rate is the rate currently applied to Scottish domiciled students (£1,820). The 'rUK' rate is the fee rate applied to students from elsewhere in the UK (currently capped at £9,250) and the 'international' fee rate is the fee rate each institution currently charges to international students from outwith the EU.

In the table below, references to 'residency conditions' are to the student's **place of ordinary residence**<sup>1</sup>.

**Please note that the arrangements below will extend to those students living in the UK before the end of 2020 who are still awaiting final confirmation of their settled/pre-settled status AND to those who have not yet applied to the EUSS before the 30 June 2021 deadline.**

---

<sup>1</sup> Ordinary residence means a person's place of residence which they have adopted voluntarily and for settled purposes, whether of short or long duration. The current rules on assessing ordinary residence for student support purposes (including an exclusion for residence for the primary purpose of education) will apply.

## Section 3– Intercalation, articulation, repeats, course changes and breaks in study

### 3.1 Intercalated students

Eligible EU nationals who began their degree in 2020-21 or earlier, who commence an intercalated year end-on to their degree, before recommencing their degree the following year will remain eligible for home fees for both their intercalated year and the remainder of their degree.

Similarly, those who commence their degree in 2021-22 or later and are eligible for home tuition fees, will retain home fees for the intercalated year and the remainder of their degree.

### 3.2 Articulating students

Students who began a course in academic year 2020-21 or earlier, who then articulate end-on to another related qualification will continue to be entitled to home tuition fee funding (providing there is no gap in between study).

Articulating means:

- HNC to HND year 2
- HNC to degree year 2
- HND to degree year 2 or 3

### 3.3 Repeat year students

Students who began a course in academic year 2020-21 or earlier and have to repeat a year of their course will remain eligible for home tuition fees for that course where the break in study is no longer than one year.

Where the break in study is longer than a year, exceptions should be considered, depending on the circumstances of the student.

This also applies to students who are eligible for home tuition fees who commence in 2021-22 and have to repeat a year later on.

### 3.4 Deferrals

Students who were due to commence a course in 2020-21 but deferred their place until 2021-22 or later will be assessed for tuition fees according to the regulations in place for the 2021-22 academic year.

Universities and colleges should give consideration to the level of tuition fees being charged where the institution has delayed the running of a course until 2021-22 (i.e. if the student had no option but to defer their course start date).

### 3.5 Course change students – Who do NOT have settled or pre-settled status

Students who started a course in 2020-21 or earlier and then decide to change course in 2021-22 or later will fall under the new arrangements unless it is one of the approved articulation pathways. **This is only if they do not have pre-settled or settled status.**

For example, students who progress to postgraduate level will be assessed under the new arrangements at the point they change course if they do not have pre-settled status or settled status in place when commencing the new course.
